

Consent for Anesthesia

I hereby consent and authorize the performance of the following procedure(s):

I understand that during the performance of the foregoing procedures, unforeseen conditions may be revealed that necessitate an extension of the procedure, or a different procedure than set forth above. I therefore consent to and authorize the performance of such procedures, as are necessary and desirable in the exercise of the veterinarian's professional judgment. I understand that no surgical procedure has a guarantee of success and that complications may result following performance of the above procedures. The potential complications have been explained to me and I have received a written estimate of the cost of the above procedures.

I understand my pet will be anesthetized and that there are risks inherent with the administration of general anesthesia and that in rare cases death may occur as a result of anesthesia.

In the event of cardiac arrest, the staff will commence reasonable resuscitation efforts, which may consist of medication to support heart and lung function, as well as external cardiac compression. I give permission for these measures to be undertaken as necessary.

I have read and understand this authorization and consent.
